Creative Brick Solutions

Originelle Brick Slips

USE: Brick Slips for External and Internal Façades

Originelle brick slips are thin slices of natural clay that replicate the look and texture of traditional brick walls. These brick slips are designed to be used as a decorative finish for interior or exterior walls, adding a unique and contemporary twist to any space. With various colors, textures, and finishes available, Originelle brick slips can be used to create a range of styles and designs, from modern and minimalist to rustic and industrial.

As these brick slips are created in a wood-fired kiln, their position in the oven creates a unique tone to each slip. A natural colouring is therefore created that compliments earthy tones, perfect for a rustic-looking project. Alternatively, architects looking for a modern twist can benefit from the minimalist aesthetic these brick slips provide.

Key Features

Durable and strong, these brick slips use the natural clay with additives to achieve their colour.

Patterns can be created by combining shapes or angles of brick slips that, once assembled, create a variety of finishes depending on the chosen style.

Bespoke shapes and special shapes available.

Brick slips are a lightweight solution with increased speed of construction.

Naturally fire resistant due to the materials and coating used.

Available in a range of colours and sizes, including long format, so all architectural visions can be achieved.
